ClearCom Technologies

FedEx or UPS Shipping
Our physical address is not in the databases because we are in a rural location. Force the address through. We receive packages every day.

The 3 Step Easy Order Form

1. **Prepare Tool for Shipping** Check the software file on your tool. There is an additional $50 for tools that have to be reloaded with the correct software. **Do NOT send any cables or cases. Only send the tuner itself along with this order form.**

SOFTWARE FILES

Make sure your tool is loaded with the correct software file for the truck it's VIN locked to. If you don't know, we will still be able to unlock it, but there is an additional $50 charge to load the tool with the old software. Any existing software files will be lost and replaced with the software for the truck the tool is VIN locked to.
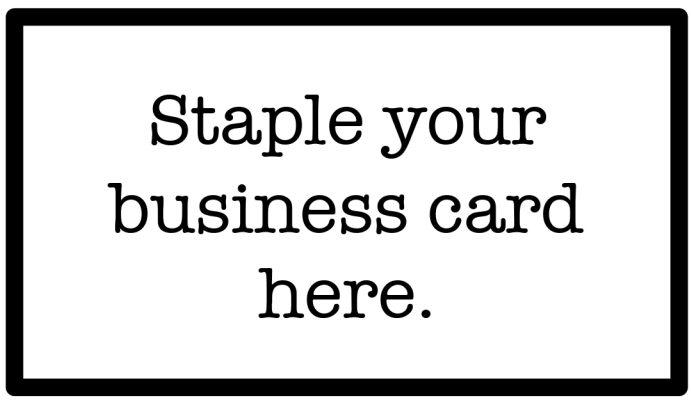

SERVICE FEES

We will not charge unless we are successful. We notify you before charging if a software file had to be loaded.

We have a 100% success rate.

$150 to unlock any VIN locked tool.

$50 if we have to load the tool with correct software file.

(This charge is completely avoidable if you know what truck your tool is VIN locked to. See "Software File" above.)

2. **Staple** your business card

Staple your business card here.

Or provide us with:

Contact Name:

Contact Phone Number:

Shipping Address:

Email Address for delivery tracking:

3. **Tell** us how you will be paying.

Unlocked tools cannot be shipped until payment has been made.

Select one ☐ *Paypal* or ☐ *VISA* or ☐ *Mastercard* or ☐ *Discover*
